CONTINUES ON OTHER SIDE ▶

↘ 3 **BROOD BROTHER** operatives selected from the following list[3]:

- **2 PSYCHIC FAMILIAR** operatives (still counts as one selection)
- **MAGUS** (counts as two selections)[2]
- **PATRIARCH** (counts as three selections)[2]
- **PRIMUS** (counts as two selections)[2]
- **TROOPER**

Other than **TROOPER** operatives, your kill team can only include each option on this list once.

[1] You cannot select more than three of these operatives combined.

[2] Your kill team can only include up to one **BROODCOVEN** operative. If one of these operatives is selected for deployment, your **COMMANDER** operative loses the **LEADER** keyword for the battle.

[3] Up to three times, instead of selecting one of these operatives, you can select one **BROOD BROTHER** ploy to cost you 0CP for the battle. Note that 'counts as' selections still apply; for example, if you select a **PATRIARCH** operative, you could not do this.
