GEOMANCER ACTIONS

MOLECULAR BREACH 1AP

- **SUPPORT**. Select one friendly **CANOPTEK CIRCLE** operative visible to and within 6" of this operative. Alternatively, you can select one friendly **CANOPTEK CIRCLE** operative visible to this operative and within your **OBELISK NODE MATRIX** (**SUPPORT** doesn't apply to this selection).
- The next time the selected operative performs an action in which it moves, don't move it. Instead, remove it from the killzone and set it back up wholly within a distance equal to its Move stat (or 3" if it was a **Dash**) horizontally of its original location (in a killzone that uses the close quarters rules, e.g. Killzone: Tomb World, this distance can be measured over and through Wall terrain and the operative can be set up on the other side). Note that it gains no additional distance when performing the **Charge** action. It must be set up in a location it can be placed, and unless it's the **Charge** action, it cannot be set up within control range of an enemy operative.
- This operative cannot perform this action while within control range of an enemy operative.
