DEATHWATCH

FACTION RULE

SPECIAL ISSUE AMMUNITION

The Deathwatch utilise a range of specialised ammunition in many of their weapons. Each type is designed to eliminate specific xenos foes.

Once per turning point, when a friendly **DEATHWATCH** operative is performing the **Shoot** action, in the Select Weapon step, you can use this rule. If you do, select one of the following weapon rules for that operative's ranged weapons to have until the end of the action. This rule cannot be used with explosive grenades (see universal equipment) or melta bombs.

- Blast 1" (you cannot select this if the weapon profile being used has the Torrent weapon rule)
- Devastating 1
- Lethal 5+
- Piercing Crits 1
- Saturate
- Severe
