EXACTION SQUAD

FIREFIGHT PLOY

BRUTAL BACKUP

When combating the most belligerent of foes, Arbitrators may combine their considerable might to bludgeon the guilty with baton and maul.

Use this firefight ploy during a friendly **EXACTION SQUAD** operative's activation, before or after it performs an action. Select one enemy operative within its control range. One other friendly **EXACTION SQUAD** operative can immediately perform a free **Fight** action, but you cannot select any other enemy operative to fight against during that action.
