EXODITE DRAGON MASTER

STRATEGY PLOY

RIDE THEM DOWN

Drakesteeds are large and ferocious beasts, utterly deadly when their slashing talons and rending fangs are magnified by crushing impact.

Once during each friendly **EXODITE DRAGON MASTER** **MOUNTED** operative's activation, whenever it ends its move during the **Sprint** action:

- If it moved 4" or more during that action, you can inflict 1 damage on one enemy operative within its control range.
- If it moved 7" or more during that action, or it's a **CLANBLADE** operative, you can inflict D3 damage on one enemy operative within its control range instead.
