**Toxic Blessings:** You can ignore any changes to this operative's APL stat and it's not affected by enemy operatives' Shock weapon rule. Whenever an attack dice inflicts Normal Dmg of 3 or more on this operative, roll one D6: on a 5+, subtract 1 from that inflicted damage.

**Pox Bomb:** This operative can use stun grenades (see universal equipment). Doing so doesn't count towards any limited uses you have (i.e. if you also select that grenade from equipment for other operatives). Whenever an enemy operative takes a stun test as a result of this operative performing the **Stun Grenade** action, if the result is a 3+, also inflict damage on that enemy operative equal to the dice result halved (rounding up).
