GELLERPOX INFECTED

FIREFIGHT PLOY

BARGE

The enormous bodies of the Nightmare Hulks allow them to barge enemies and obstructions aside to achieve their objective.

Use this firefight ploy during a friendly **GELLERPOX INFECTED NIGHTMARE HULK** operative's activation or counteraction, before or after it performs an action. During that activation/counteraction:

- It can move through enemy operatives and within control range of them.
- It can perform the **Charge** and **Reposition** actions while within control range of an enemy operative, and can leave that operative's control range to do so (but then normal requirements for that move apply).
