GELLERPOX INFECTED

FIREFIGHT PLOY

FRIGHTENING ONSLAUGHT

Nightmare Hulks can strike without pause, with terrifying speed.

Use this firefight ploy after a friendly **GELLERPOX INFECTED NIGHTMARE HULK** operative performs the **Fight** action, if it isn't incapacitated. It can immediately perform a free **Fight** action (you don't have to select the same enemy operative to fight against). This takes precedence over action restrictions.
