INQUISITORIAL AGENT

FIREFIGHT PLOY

RELENTLESS IN PURSUIT

The Inquisition pursues its foes with dogged and relentless determination.

Use this firefight ploy when an enemy operative within 2" of a ready friendly **INQUISITORIAL AGENT** operative performs an action in which it moves. After it moves, that friendly **INQUISITORIAL AGENT** operative can either perform a free **Reposition** action, but must end that move within 2" of that enemy operative, or a free **Charge** action, but must end that move within control range of that enemy operative. If neither is possible, that friendly operative cannot perform those actions, this ploy isn't used and the CP spent on it is refunded.
