INQUISITORIAL AGENT

STRATEGY PLOY

QUARRY

For those judged guilty, there is no escape. Once marked for execution, the Inquisition's quarry is doomed.

Select one enemy operative to be your quarry for the turning point. Whenever a friendly **INQUISITORIAL AGENT** operative is shooting against, fighting against or retaliating against your quarry, that friendly operative's weapons have the Ceaseless weapon rule. Whenever your quarry is incapacitated, you can select a new enemy operative to be your quarry (and can continue to do so during this turning point).
