LEGIONARY

FACTION RULE

ASTARTES

These genetically modified superhumans are made for one purpose: war.

During each friendly **LEGIONARY** operative's activation, it can perform either two **Shoot** actions or two **Fight** actions. If it's two **Shoot** actions, a bolt pistol, boltgun or tainted bolt pistol must be selected for at least one of them.

Each friendly **LEGIONARY** operative can counteract regardless of its order.
