NOVITIATE

FACTION EQUIPMENT

AUTO-CHASTISERS

These instruments of self-flagellation inflict blessed agonies upon the bearer, fanning the flames of their blazing zeal.

Once per turning point, when a friendly **NOVITIATE** operative is shooting, fighting or retaliating, in the Roll Attack Dice step, you can inflict 1-3 damage on that friendly operative (but not enough to incapacitate it). If you do, you can use one **ACT OF FAITH** for free during that sequence with a Faith points cost no more than the damage you inflicted from this rule.
