PATHFINDER

FACTION EQUIPMENT

PHOTON GRENADE

Upon reaching their destination, photon grenades release bright pulses of multispectrum light that blind and shock those caught in the blast.

Once per turning point, a friendly PATHFINDER operative that has the **Markerlight** action on their datacard (excluding **DRONE**) can perform the following unique action:

PHOTON GRENADE 1AP

- Select one enemy operative visible to this operative and roll one D6: on a 3+, until the end of that operative's next activation, subtract 2" from its Move stat.
- An operative cannot perform this action while within control range of an enemy operative.
