SPECTRE SQUAD

FACTION RULE

ELITE FIELDCRAFT (CARD 2/3)

If it's the **Shoot** action, you can change that friendly operative's order to perform this action. You cannot select any other enemy operative as a valid target during that action. Being within that enemy operative's control range (but no others) doesn't prevent that friendly operative from performing that action, in which case follow the rules for a point-blank shot from the **Guard** action (see *Kill Team Core Book*).
