SPECTRE SQUAD

FACTION RULE

ELITE FIELDCRAFT (CARD 3/3)

If it's the **Reposition** action, that friendly operative cannot perform that action again during the turning point. If it's the **Dash** or **Reposition** action, that friendly operative cannot end this move closer to that enemy operative or your opponent's drop zone (unless it ends that move wholly within your drop zone). In a killzone that uses the close quarters rules (e.g. Killzone: Tomb World), ignore Wall terrain when determining closer and you cannot teleport.
