SPECTRE SQUAD

STRATEGY PLOY

DISAPPEAR

Spectres know many ways to fade out of sight and rapidly reposition.

One friendly SPECTRE SQUAD operative can immediately perform a free **Reposition** action. It cannot end that move closer to enemy operatives or your opponent's drop zone (unless it ends that move wholly within your drop zone) and it cannot perform that action again during the turning point. In a killzone that uses the close quarters rules (e.g. Killzone: Tomb World), ignore Wall terrain when determining closer.
