VESPID STINGWING
FACTION RULE

FLY

The thrumming wings of the Vespids bear them aloft with speed and remarkable agility.

Whenever a friendly **VESPID STINGWING** operative performs an action in which it moves, it can **FLY**. If it does, don't move it. Instead, remove it from the killzone and set it back up wholly within a distance equal to its Move stat (or 3" if it was a **Dash**) horizontally of its original location (in a killzone that uses the close quarters rules, e.g. Killzone: Tomb World, this distance cannot be measured over or through Wall terrain, and that operative cannot be set up on the other side of an access point – in other words it cannot **FLY** through an open hatchway). Note that it gains no additional distance when performing the **Charge** action. It must be set up in a location it can be placed, and unless it's the **Charge** action, it cannot be set up within control range of an enemy operative.
