XV26 LODESTAR

APL	MOVE	SAVE	WOUNDS
3	6"	3+	12

Electrochaff Launcher: Once per turning point, when an enemy operative is performing the **Shoot** action and your opponent selects a valid target (excluding **DRONE**), you can use this rule, providing this operative isn't within control range of enemy operatives. If you do, until the end of that action, whenever an enemy operative is shooting a friendly **XV26 STEALTH BATTLESUIT** operative that's both visible to and within 3" of this operative and more than 2" from that enemy operative:

- Ignore the Piercing weapon rule.
- That friendly operative is obscured.

Homing Beacon: This operative is carrying your Homing Beacon marker. Operatives (excluding **DRONE**) can perform the **Pick Up Marker** action on that marker. The first time an enemy operative performs the **Pick Up Marker** action on your Homing Beacon marker, discard that marker (remove it from the battle).

In the Ready step of each Strategy phase, when you gain CP, if your Homing Beacon marker is placed in the killzone, roll one D6, adding 1 to the result for each objective marker your Homing Beacon marker is within 6" of. If the result is 5+, you gain 1CP.
