XV26 STEALTH BATTLESUIT
STRATEGY PLOY

BONDS OF UNITY

Stealth battlesuit pilots can draw strength and resolve from comrades.

Whenever a friendly **XV26 STEALTH BATTLESUIT** operative is activated (excluding **DRONE**), if it's visible to and within 6" of another friendly **XV26 STEALTH BATTLESUIT** operative (excluding **DRONE**), you can ignore any changes to that first friendly operative's APL stat and select one of the following:

- Ignore any changes to that first friendly operative's Move stat from being injured until the end of that activation.
- Ignore any changes to the Hit stat of that first friendly operative's weapons from being injured until the end of that activation.
