EXACTION SQUAD
FACTION RULE

MARKED FOR JUSTICE

Exaction Squads prioritise their targets, focusing their ire on those marked for immediate punishment before moving on to the next transgressor.

STRATEGIC GAMBIT. Select one enemy operative to be your mark for the turning point. Whenever a friendly **EXACTION SQUAD** operative is shooting against, fighting against or retaliating against your mark, that friendly operative's weapons have the Punishing weapon rule. Whenever your mark is incapacitated, you can select a new enemy operative to be your mark for the turning point (and can continue to do so during this turning point).
