EXACTION SQUAD
FACTION RULE

RUTHLESS EFFICIENCY

A target, whether marked to be apprehended or eliminated, stands little chance of escaping the attention of an Adeptus Arbites Exaction Squad.

Whenever a friendly **EXACTION SQUAD** operative is shooting (excluding with frag or krak grenades) and you're selecting a valid target, you can use this rule. If you do, having other friendly **EXACTION SQUAD** operatives within an enemy operative's control range doesn't prevent that enemy operative from being selected.
