EXODITE DRAGON MASTER

STRATEGY PLOY

SINUOUS FLUX

Dragon Masters on the hunt are frighteningly evasive predators. The expert riders, as well as their reptilian mounts and hunting beasts, weave and coil to elude the foe's attacks.

Whenever an enemy operative is shooting a friendly **EXODITE DRAGON MASTER** operative more than 6" from it, if that friendly operative has **SPEED 4+** or **SPEED 7+**, your opponent cannot re-roll their attack dice.
