Brutal Display: Once per turning point, when this operative incapacitates an enemy operative within its control range, you can select one other enemy operative visible to and within 6" of either this operative or the incapacitated enemy operative. Until the start of the next turning point, that other enemy operative cannot control markers or perform the **Pick Up Marker** or mission actions.

Crimson Duellist: This operative can perform two **Fight** actions during its activation.

***Tangle:** Whenever this operative is fighting or retaliating with this weapon, each of your blocks can be allocated to block two unresolved successes (instead of one).
