HAND OF THE ARCHON

FIREFIGHT PLOY

DEVIOUS SCHEME

Schemers all, the Drukhari are used to staying one step ahead of their opponents and confounding their every move.

Use this firefight ploy after an opponent uses a firefight ploy (excluding one that costs 0CP). The next time they would use that ploy, they must spend 1 additional CP to do so (at which point this effect ends). You cannot use this ploy again during the battle until its effect has ended.
