HUNTER CLADE

STRATEGY PLOY

DEBILITATING IRRADIATION

The Skitarii Vanguard push forward, shrouded in clouds of radiation. Those caught in this lethal miasma find their combat abilities greatly degraded.

Whenever an enemy operative is shooting against, fighting against or retaliating against a friendly HUNTER CLADE **VANGUARD** operative, if that enemy operative is under the effects of the Rad-Saturation rule (see **VANGUARD** operatives), subtract 1 from the Normal Dmg stat of its weapons (to a minimum of 3).
