LEGIONARY

FIREFIGHT PLOY

MALIGNANT AURA

Those who swear themselves to Nurgle may be granted his favour. Some are even able to project an miasmic aura of decay.

Use this firefight ploy when a friendly LEGIONARY **NURGLE** operative is performing the **Shoot** action, when you select a valid target. Until the end of that action, whenever that friendly operative is shooting an enemy operative within 3" of it (i.e. including secondary targets, if any), that friendly operative's ranged weapons have the Piercing 1 weapon rule.
