POISON OBJECTIVE 1AP

- Select one objective marker this operative controls to gain one of your Terrorchem tokens. It cannot be an objective marker within control range of an enemy operative, or one that already has one of your Terrorchem tokens. The first time an enemy operative that doesn't have one of your Terrorchem tokens contests that objective marker, that operative gains that Terrorchem token, then inflict 2D3 damage on it (if it's during an action, at the end of that action).

- This operative cannot perform this action while within control range of an enemy operative.
