Haywire Mine: This operative is carrying your Haywire Mine marker. It can perform the **Pick Up Marker** action on that marker, but that marker cannot be placed within an enemy operative's control range (if this operative is incapacitated while carrying that marker and that marker cannot be placed, it's removed with this operative).

Proximity Mine: The first time your Haywire Mine marker is within another operative's control range, remove that marker, subtract 1 from that operative's APL stat until the end of its next activation, and inflict 2D3+3 damage on it; if it isn't incapacitated, end its action (if any), even if that action's effects aren't fulfilled. If it cannot be placed, move it the minimum amount to do so. Note that this operative is ignored for these effects (i.e. it cannot set it off or take damage from that marker).
