Tripwire: When setting up equipment before the battle, you can set up to two of your Tripwire markers up wholly within your territory and more than 2" from other markers, access points and Accessible terrain. The first time that marker is within an enemy operative's control range, remove that marker, subtract 1 from that operative's APL stat until the end of its next activation and end its action (if any), even if that action's effects aren't fulfilled. If it cannot be placed, move it the minimum amount to do so.

Mine: Mines you select from universal equipment inflict 2D3+3 damage instead, and friendly **RATLING** operatives (excluding **OGRYN** and **BULLGRYN**) are ignored for your mines' effects (i.e. they cannot trigger or take damage from them). This takes precedence over the normal mines rules.
