RAVENER

STRATEGY PLOY

WRITHE OUT OF SIGHT

Few organisms are as capable of slithering away into darkness in the blink of an eye as Raveners. The question then is, where did they go...?

Select one friendly RAVENER operative in the killzone. That friendly operative can immediately perform a free **Burrow** action. If it's within 2" of your **TUNNEL**, it can immediately perform a free **Fall Back** or **Reposition** action before it does so.
