Drone:

- This operative cannot perform any actions other than **Charge**, **Dash**, **Fall Back**, **Fight**, **Reposition** and **Shoot**.
- Whenever determining control of an objective marker, treat this operative's APL stat as 1 lower. Note this isn't a change to its APL stat, so any changes are cumulative with this.
- This operative cannot use any weapons that aren't on its datacard.
- Whenever determining what's visible to this operative, the round disc at the top of the miniature is its head.
- This operative is ignored for your opponent's kill/elimination op (when it's incapacitated, and when determining your starting number of operatives). It's also ignored for victory conditions and scoring VPs if either require operatives to 'escape', 'survive' or be incapacitated by enemy operatives (if it escapes/survives/is incapacitated, determining how many operatives must escape/survive/be incapacitated, etc.).

Markerlight: Whenever an enemy operative is a valid target for this operative, or is visible to this operative and within 2" of your Ambush marker (see Prepare Ambush strategy ploy), it's marked. Whenever a friendly **XV26 STEALTH BATTLESUIT** operative is shooting an operative that's marked, that friendly operative's ranged weapons have the Severe weapon rule. Note that an operative can be a valid target for this operative even if this operative isn't the active operative.
