Vicious Duellist: Whenever this operative is fighting or retaliating, for each attack dice your opponent discards as a fail, inflict 1 damage on the enemy operative in that sequence.

Savage Assault: The first time this operative performs the **Fight** action during each of its activations, if neither it nor the enemy operative in that sequence is incapacitated, this operative can immediately perform a free **Fight** action afterwards, but you cannot select any other enemy operative to fight against during that action (and only if it's still valid to fight against). This takes precedence over action restrictions.
