🔫 Hot-shot laspistols (salvo)	4	4+	3/4	Range 8", Salvo*
🔫 Hot-shot laspistols (point-blank)	4	3+	3/4	Ceaseless

***Salvo:** Select up to two different valid targets that aren't within control range of friendly operatives. Shoot with this weapon against both of them in an order of your choice (roll each sequence separately).

Gunfight: Whenever an enemy operative within 8" of this operative shoots this operative, keep track of each attack dice that's discarded as a fail. After the action, before incapacitated operatives are removed (including this one, if relevant), this operative can perform a free **Shoot** action (you can change its order to Engage to do so), but it can only target that enemy operative with its hot-shot laspistols (focused), and you only roll a number of attack dice equal to the opponent's discarded attack dice plus one (to a maximum of four).
