

BATTLECLADE👤

FIREFIGHT PLOY

SERVILE SURROGACY

Deeply woven into each thrall's cybernetic programming is the instinct to bodily shield their masters should they be threatened.

Use this firefight ploy when a friendly **BATTLECLADE👤 TECH-PRIEST** operative is selected as the valid target of a **Shoot** action or to fight against during the **Fight** action. Select one friendly **BATTLECLADE👤 SERVITOR** operative visible to and within 3" of that first friendly operative to become the valid target or to be fought against (as appropriate) instead (even if it wouldn't normally be valid for this). If it's the **Fight** action, treat that **SERVITOR** operative as being within the fighting operative's control range for the duration of that action. If it's the **Shoot** action, that **SERVITOR** operative is only in cover or obscured if the original target was.

This ploy has no effect if it's the **Shoot** action and the ranged weapon has the Blast or Torrent weapon rule.
