Obelisk Node Control: Whenever this operative would perform a mission action (excluding **Retrieve**, Approved Ops 2025), if it requires this operative to control an objective marker, you can instead determine control from one of your **OBELISK NODE** markers (see Obelisk Node Matrix faction rule). Whenever this operative would perform the **Operate Hatch** action, you can open or close a hatchway that's access point is within 1" of one of your **OBELISK NODE** markers instead. Note that you must still fulfil the **Operate Hatch** action's conditions.
