

ELUCIDIAN STARSTRIDER👤

FIREFIGHT PLOY

COMBINED ARMS

The standard training of the Navis Imperialis allows the Starstriders to rain fury down upon the enemy with rapid volleys. In great enough volume, even the humble lasgun can shatter formidable defences.

Use this firefight ploy after rolling your attack dice for a friendly **ELUCIDIAN STARSTRIDER👤** operative, if it's shooting an enemy operative that's been shot by another friendly **ELUCIDIAN STARSTRIDER👤** operative during this turning point. You can re-roll any of your attack dice. You cannot use this ploy while shooting with a **PRIVATEER SUPPORT ASSET**.
