

FARSTALKER KINBAND

STRATEGY PLOY

ROGUE

Kroot Farstalkers are naturally gifted hunters, using cover and shadow to their advantage as they close in upon their prey.

Whenever an operative is shooting a friendly **FARSTALKER KINBAND** operative:

- Ignore the Saturate weapon rule.
- If you can retain any cover saves, you can retain one additional cover save, or you can retain one cover save as a critical success instead. This isn't cumulative with improved cover saves from Vantage terrain.
