## STRATEGY PLOY

### ELIMINATION PATTERN

Having already outmanoeuvred the foe, the Kasrkin attempt to fell their target in a single volley.

Whenever a friendly **KASRKIN**  operative is shooting with a hot-shot weapon against an operative that cannot retain any cover saves or is being scanned (see **RECON-TROOPER**), that weapon has the Piercing Crits 1 weapon rule, or Piercing 1 instead if it's a hot-shot volley gun.
