***Zealous Rage:** Whenever this operative is fighting with this weapon, it has the Ceaseless weapon rule.

Absolution Through Destruction: Whenever this operative performs the **Fight** action, if it isn't incapacitated, it can immediately perform a free **Fight** action afterwards. This takes precedence over action restrictions, and you cannot perform more than two **Fight** actions in succession as a result of this rule. If this operative is benefitting from the effects of the **Whip Into Frenzy** action (see **EXACTOR**), this applies to each of the **Fight** actions from those effects.
