TALISMANIC TROPHIES

Thick pelts, skulls and tails adorn these sons of Russ. These trophies – taken from huge lupine beasts they have tracked and killed on Fenris – are seen as potent tokens of luck and protection against malign attacks.

Whenever a friendly **WOLF SCOUT**  operative (excluding **FENRISIAN WOLF**) that's wholly within your **STORM** is fighting or retaliating, in the Resolve Attack Dice step, you can subtract 1 from the damage inflicted on it from one normal success.
