

RAVENER

FACTION RULE

BURROW

Ravener will emerge from their tunnels to strike at unsuspecting victims, then disappear again before their foe can properly react.

When setting up a **RAVENER**  kill team before the battle, your first two operatives must be set up as normal. Each other friendly **RAVENER**  operative thereafter can be set up underground: place it to one side instead of in the killzone.

In the Firefight phase, friendly **RAVENER**  operatives set up underground are activated and can counteract as normal. Whenever a friendly **RAVENER**  operative is underground, it cannot perform any actions other than **Burrow**. At the end of the battle, each friendly **RAVENER**  operative that's underground is incapacitated.

CONTINUES ON OTHER SIDE

Friendly **RAVENER** operatives can perform the following unique action:

BURROW

1AP

- ▶ If this operative is underground, set it up on your **TUNNEL** in a location it can be placed (it's no longer underground, and it can be set up within control range of enemy operatives). Until the end of the activation/counteraction, subtract 2" from its Move stat.
- ▶ Alternatively, instead of resolving the above effect, if this operative is in the killzone and on your **TUNNEL**, remove it from the killzone: it's now underground.
- ◆ An operative cannot perform this action while carrying a marker, or if it isn't either underground or on your **TUNNEL**.
