Expert Swordsman: This operative can perform two **Fight** actions during its activation. Whenever this operative ends the **Fight** action, if it's no longer within control range of enemy operatives, it can immediately perform a free **Charge** action (even if it's already performed the **Charge** action during that activation), but it cannot move more than 3" during that action. Doing so doesn't prevent it from performing the **Dash** action afterwards during that activation.

Quicksilver Strike: Once per turning point, after an enemy operative performs an action in which it moves or is set up, you can interrupt to use this rule. If you do, this operative can immediately perform a free **Charge** action (you can change its order to do so), but it cannot move more than 3", and it must end that move within control range of that enemy operative. If this isn't possible, the interruption is cancelled and this rule hasn't been used.

Bladed Stance: Whenever this operative is fighting or retaliating, you can resolve one of your successes before the normal order. If you do, that success must be used to block.
