

FACTION RULE

OBELISK NODE MATRIX

Obelisk nodes are concentrations of Necron technology, hubs of energy and data streams. Whether raised up from their sites of ancient burial, formed from restructured local matter or phased into place from a pocket dimension, these angular nodes can empower a Cryptek and their servants. Impelled into positions where they can connect in a matrix of power, they aid the Cryptek's ambitions whilst hampering their foes.

As a **STRATEGIC GAMBIT** in the first turning point, place your three **OBELISK NODE** markers wholly within your territory. As a **STRATEGIC GAMBIT** in each turning point after the first, you can move each of your **OBELISK NODE** markers up to 3" horizontally.

Your **OBELISK NODE** markers control other markers within 1" of them that no enemy operatives contest (treat your **OBELISK NODE** markers as friendly operatives for this purpose). If more than one player would use their **OBELISK NODE** markers to control the same marker, no **OBELISK NODE** markers control it.
