

# RAVENER

## STRATEGY PLOY

### DEATH FROM BELOW

Spurred by an imperative from the Hive Mind, Ravens will coordinate lunges from the depths of their tunnel network to eviscerate unwary prey that have strayed too close.

Whenever a friendly **RAVENER**  operative is fighting:

- If it's performed the **Burrow** action during that activation/counteraction, its melee weapons have the Balanced weapon rule.
- If it's on your **TUNNEL**, its melee weapons have the Ceaseless weapon rule.
