Mechanosuture Array: Once per turning point, when another friendly **BATTLECLADE** operative would be incapacitated while visible to and within 3" of this operative, you can use this rule, providing neither this nor that operative is within control range of an enemy operative. If you do, that friendly operative isn't incapacitated, has 1 wound remaining and cannot be incapacitated for the remainder of the action. After that action, that friendly operative can immediately perform a free **Dash** action, but must end that move within this operative's control range. If this rule was used during that friendly operative's activation, that activation ends. You cannot use this rule if this operative is incapacitated, or if it's a **Shoot** action and this operative would be a primary or secondary target.

EXPEDIENT REPAIR

1AP

- ▶ Select one friendly **BATTLECLADE** operative within this operative's control range to regain up to D3+3 lost wounds. It cannot be an operative that the Mechanosuture Array rule was used on during this turning point.
- ◆ This operative cannot perform this action while within control range of an enemy operative.
