Medic!: The first time during each turning point that another friendly **ELUCIDIAN STARSTRIDER** operative would be incapacitated while visible to and within 3" of this operative, you can use this rule, providing neither this nor that operative is within control range of an enemy operative. If you do, that friendly operative isn't incapacitated, has 3 wounds remaining and cannot be incapacitated for the remainder of the action. After that action, that friendly operative can immediately perform a free **Dash** action, but must end that move within

this operative's control range. If this rule was used during that friendly operative's activation, that activation ends. You cannot use this rule if this operative is incapacitated, or if it's a **Shoot** action and this operative would be a primary or secondary target.

Normaliser Helm: Whenever a friendly **ELUCIDIAN STARSTRIDER** operative is within 6" of this operative, you can ignore any changes to that operative's stats from being injured (including its weapons' stats).
