▶ Inflict D3+2 damage on each other operative that's both visible to and within 2" of this operative. Roll separately for each: if it's an enemy operative, if the D3 result is a 3, that enemy operative also gains one of your Poison tokens (if it doesn't already have one).

◆ For the purposes of action restrictions and the Astartes faction rule, this action is treated as a **Fight** action. This operative cannot perform this action while it has a Conceal order.
