**Vicious Knife Fighter:** Whenever this operative is fighting, after resolving your first attack dice during that sequence, you can immediately resolve another (before your opponent).

**Dynamic:** Whenever this operative performs the **Shoot** or **Fight** action, it can immediately perform a free **Dash** action afterwards. It can do so even if it's performed the **Charge** action during this activation, but can only use any remaining move distance it had from that **Charge** action (to a maximum of 3").
