## FIREFIGHT PLOY

### LIGHT FINGERS

The pursuit of riches drives all Corsairs. These lithe raiders may pluck a prize from under the nose of a foe and disappear before a blow can be landed in return.

Use this firefight ploy during a friendly **CORSAIR VOIDSCARRED ** operative's activation. Until the end of that activation, having an enemy operative within its control range doesn't prevent that friendly operative from performing the **Pick Up Marker** or mission actions.
