

# EXACTION SQUAD

## FACTION RULE

### MARKED FOR JUSTICE

---

Exaction Squads prioritise their targets, focusing their ire on those marked for immediate punishment before moving on to the next transgressor.

**STRATEGIC GAMBIT.** Select one enemy operative to be your mark for the turning point. Whenever a friendly **EXACTION SQUAD**  operative is shooting against, fighting against or retaliating against your mark, that friendly operative's weapons have the Punishing weapon rule. Whenever your mark is incapacitated, you can select a new enemy operative to be your mark for the turning point (and can continue to do so during this turning point).
